- Name: **Nisarg Parekh**
- Title: **Senior Software Engineer** (Full Stack)
- Experience – 5.7 years (as of October 2026)
- Current Company: Equip Exports LLC | Senior Software Engineer | June 2026 – Present
- Previous Company: Acespritech Solutions Pvt. Ltd.
  Training: November 2020 – March 2021
  Employment: April 2021 – May 2026
- Mobile No : **8511776839**
- Email : **nisargparekh1999@gmail.com**
- Key skills -
  Technologies: Odoo Framework
  Odoo version: v10 - v20
  Programming Languages: Python, XML, Javascript
  API Calling Services: Odoo XML-RPC
  Database: PostgreSQL
- Professional Summary -
  Intelligent and hardworking
  Highly educated and committed to creating dynamic Modules for the Odoo Framework.
  Responsible for requirements gathering, development, and project management
  Involved in Developing, Fixing Bugs, and UI Designing.

Latest Projects

Name	**Recycling Management**
Role	Senior Software Developer
Technologies used	Odoo,Postgresql , XML,Python , Javascript
Description	The project was mainly related to ewaste and recycling management software , My main role was : ● Started the project from scratch and took the requirements which includes understanding functional scope and providing technical architecture of all processes. ● Setting up and managing servers and maintaining proper structure to take backups automatically. ● Lead the project and manage it with the team as well. ● Responsible for end to end system

	processes while integrating with vehicle routing systems like Samsara and managing all processes.

Name	**South Africa Govt. Internal Software [Odoo version 15]**
Role	Developer
Technologies used	ODOO, PostgreSQL, XML, Python, Javascript, Bootstrap
Description	The project was mainly related to the university and divided into several parts. Mainly worked on : ● Building user-centric websites. ● Performing CRUD operations on the website. ● Designing the front end. ● Adding validations and managing data in the backend with proper code optimizations and quality. ● Creating APIs from backend systems to use in front-end operations. ● The finance part of the system manages accounting entries. ● Bug fixes and improvements. ● Code review and code cleaning. ● Adding several features which include: Dynamic content creation allowing users to create multiple forms to accept data, adding necessary validations to it, and storing that into the system for further processes. Etc. ● Leading team of 2 persons and coordinating with them.

Name	**Rental Lease Management System [Odoo version: 13]**
Role	Developer
Technologies used	Odoo, PostgreSQL, python, xml, javascript
Description	Lease management-related project with payment configurations management. Worked mainly on the following points: ● Managing the odoo backend and reducing time for complex computations. ● Independent payment management system, ready to integrate with the lease system. ● Started this project from scratch and finished with all of its dependencies, testing, and code optimizations

Name	**Module Migrations**
Role	Developer
Technologies used	Odoo, PostgreSQL, python, xml, javascript
Description	Migrate modules for client projects from odoo10 to odoo16 and vice-versa for several applications, for clients and company-related modules and deployment with proper testing, improvements, and bug fixes.

Name	**Project Accounting [Odoo version 13]**

Role	Developer
Technologies used	Odoo, PostgreSQL, python, xml, javascript
Description	The project mainly focused on all project-related accounting with customizations and worked on : ● Building this from scratch by adding several features to it. ● Bug fixes and improvements

Name	**SMEI [Odoo version: 11]**
Role	Developer
Technologies used	Odoo, PostgreSQL, python, XML
Description	Project related to accounting of a company. Mainly worked on : ● Creating GST-related reports with calculations ● Bug fixes and improvements ● Managing accounting entries

Name	**Private College Management System [Odoo version:13]**
Role	Developer
Technologies used	Odoo, PostgreSQL, python, xml, javascript, odoo website
Description	Project related to College website and accounting related customizations.
